excerpt from catalogue of greek etruscan and roman vases in the present catalogue the museum of fine arts desires to offer to archaeologists an exact description of the vases in its classical collection and to the general public some assistance in learning to appreciate the qualities which give greek vases an interest possessed by few classes of ancient monuments the accomplishment of this twofold task is difficult within the limits of one book and especially so when the size and character of the book are restricted as those of a catalogue must necessarily be the technical description of a vase in the

formulas now universally adopted in archaeological works is dull if not incomprehensible to those who are not specialists in the subject whereas the attempt to stop and explain in every case why this or that fact is noted would undoubtedly lead to confusion in one class of readers and exasperation in another and would moreover prolong the descriptions indefinitely therefore the book has been divided into two parts the catalogue proper which has been prepared primarily for those who make a special study of greek ceramics that they may be informed of what this museum contains and an introduction intended for those who are interested in the subject but know little about it in the latter are included a resume of the history of greek pottery with descriptions of the different types an account of the manufacture of greek vases in the best periods of the art and a list of the greek potters whose names survive for the illustration of characteristics which are described or alluded to reference is constantly made to vases in our collection to which the introduction therefore serves in some degree as a guide or commentary about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
