ahriman is a significant figure of persian mythology rudolf steiner however spoke of ahriman as an actual living spiritual entity this being he said works to embed human beings firmly into their physicality thus encouraging dull materialistic attitudes and a coarse dry intellect in these extraordinary lectures steiner assumes a rare prophetic mode he talks about an actual incarnation of ahriman on earth and the potential consequences of this event just as christ incarnated in a physical body so would ahriman incarnate in the western world before a part of the third millennium has passed steiner places this incarnation in the context of a cosmic triad that includes ahriman lucifer and christ ahriman will incarnate as a counterpoint to the physical incarnation of lucifer which took place in the east during the third millennium b c the incarnation of jesus christ took place in palestine as the point of balance between the two

during the period when steiner developed anthroposophy a teaching career of more than twenty years that included over than six thousand lectures he spoke of ahriman s incarnation only six times for the first time these six lectures plus a supporting excerpt are reproduced in their entirety in a single volume

in these lectures steiner focuses on the vital task of developing the proper orientation toward a free spiritual life with great compassion and understanding he offers telling examples of how humanity must walk a conscious middle way between the two tempting powers of lucifer and ahriman he describes the incarnation of lucifer in the third millennium before the christ event out of which flowed not just the wisdom of paganism but also the conscious intellect we enjoy today ahriman on the other hand is shown approaching human beings through such phenomena as materialism nationalism and literalism all in preparation for his incarnation in the third millennium keep in mind however that these two powers do not work separately rather they are working increasingly together our task as human beings is to hold them in balance continually permeating one with the other steiner tells us that lucifer and ahriman must be regarded as two scales of a balance and it is we who must hold the beam in equipoise how can we train ourselves to do this by permeating what takes ahrimanic form within us with a strongly luciferic element to accomplish this task we need a new more conscious inner life

no one has written more extensively about ahriman than rudolf steiner so it is helpful to read what he has written and said about him the essential purpose of this book the incarnation of ahriman is to provide the aspirant and the initiate with a compilation of steiner s descriptions of ahriman and lucifer and where those descriptions are not easily understood provide the reader with a summation of steiner s indications for each topic

rudolf steiner spoke at various times of a period that encompasses the end of the twentieth century and the beginning of the new millennium he described it as a time of great spiritual struggle in which forces of destruction would wage war on benevolent forces and how the future of culture and civilization would depend on the outcome in his many statements on this matter steiner warned in particular members of the anthroposophical society and movement that they would be called on to develop vital spiritual capacities that are becoming increasingly critical for human progress in these eighteen essays contributors offer their thoughts on the question of where anthroposophy in its earthly manifestation now stands and to what extent it is fulfilling its tasks this commentary on the challenges ahead offers us all a chance to reassess prepare and wake up this compilation features eighteen essays by jesaiah ben aharon mario betti terry boardman peter bridgmont gilbert childs dor deverell michaela gl ckler sevak gulbekian brien masters thomas meyer bernard nesfield cookson sergei o prokofieff richard seddon nick thomas peter tradowsky hans peter van manen edward warren and olive whicher

in 1919 rudolf steiner spoke about the future physical incarnation of the being of ahriman this

would take place before a part of the third millennium had passed and was inevitable but it was also necessary that people were aware of this event and recognized it for earthly culture would be destroyed if the world were to fall completely to ahriman the situation we find ourselves in today shows ahriman's unmistakable signature the rapid destruction of nature zoonotic diseases and pandemics huge social inequalities and the overall dominance of high finance in this short book peter selg presents a timely overview of the challenges we face beginning with a pithy and concise survey of steiner's commentary on ahriman's incarnation and the conditions that would characterize it this is followed by a study of ahriman's depiction in the mystery drama the souls awakening steiner's remarkable personification of ahriman on stage portraying his strategies and activities provides vital instruction for humanity selg concludes with an evaluation of the battle for human intelligence taking place in contemporary culture through materialistic ideas such as transhumanism in their recent book covid 19 the great reset for example klaus schwab and thierry malleret propose wholesale economic geopolitical environmental and technological revisions to society ideas that need to be understood and confronted in human thought and consciousness the future of ahriman is a crucial aid to comprehending our times

wise and humorous sensemaking in a mad world grounded in wild nature sustainable culture and free spirit what is stopping us from practicing our human future now beyond the old paradigm of false narratives and party politics we walk in natural law of nature culture spirit an empowering deep dive for free thinkers righteous rebels and awaking activists nowick gray's essays from the new agora 2020 21 paint visions of our creative sovereignty

this is a lecture on the signs of the times steiner speaks of the incarnation of lucifer and the imminent incarnation of ahriman

in 1828 a young boy was discovered on the streets of nuremberg in his hand he clutched a letter directing him to some local stables where he was intended to work this young man kaspar hauser who could barely write his name and could speak only a few words was soon to become an international phenomenon the child of europe in this seminal work peter tradowsky addresses the mysteries surrounding kaspar hauser's life using the modern science of the spirit anthroposophy his analysis delves deeply into the occult significance of the individuality incarnated as kaspar hauser

rudolf steiner's perspectives on technology are manifold and prophetic he not only critiqued the technology of his day but foretold new forms of technology that would inevitably arise technologies that would be connected to the makers very attitudes of soul either the good or bad within them in other words their deepest motivations how we as evolving human beings approach technology and its development will be instrumental in determining how ultimately human evolution will turn out our future as human beings and the future of technology are

intimately connected gary lamb illuminating compelling challenging at times staggering in its breadth a road to sacred creation is above all the definitive text for gaining a hold on rudolf steiner's nuanced perspectives on technology charting both an inner and outer course part pilgrimage toward greater perception and knowledge part dramatic unfolding plot line of the future of humans and machines the metaphoric road of the title is exactly where humanity finds itself today though the exact route and destination are still to be determined the map is not yet drawn but here is a beginning taken together the relevant concepts ideas and insights of steiner deftly brought into sequence and dialogue as the editor has done in this book reveal how the work to arrive at a more spiritually imbued technological future not only involves all domains and fields of spiritual science and anthroposophic work but has its origins in the very core of our being fundamentally entwined with our moral progress toward freedom and selfless love

in the uncertainty following the end of the first world war rudolf steiner perceived a unique opportunity to establish a healthy social and political constitution he began lecturing throughout post war germany often to large audiences about his social ideas here speaking to a more intimate grouping at the goetheanum in dornach switzerland steiner seeks to deepen the themes of social threefolding showing specifically how new social thinking is integral to anthroposophy steiner speaks of the superficiality of the materialistic view of history originating with the economic shift amongst the population at the time of the reformation back in egyptian chaldean times initiates ruled out of spiritual impulses later in the greco roman period priests had power over their congregations today homo economicus or economic man has become the dominant idea with the capitalist and the banker taking control but the healing of social relationships can only come about through different modes of thought the life of spirit must be separated not only from politics but also from economics true social understanding allows for comprehension of karma the appreciation of each person's individual destiny in parallel says steiner we should work towards a global consciousness as true social ideas are founded on people feeling themselves to be citizens of the world in an important corollary steiner studies the incarnations of three significant spiritual beings in human evolution lucifer christ and ahriman lucifer incarnated in the third pre christian millennium christ incarnated at the dawn of a new age whilst an incarnation of ahriman in the west is immanent ahriman is preparing this incarnation by insidiously promoting various ideas for example that economic security is sufficient for healthy public life a new wisdom must be achieved out of free human will says steiner or else we will succumb to ahriman

rudolf steiner declared in 1919 the forces that have so far guided human progress will be exhausted by the middle of this century elsewhere he spoke of an acute illness of civilization or a real blind alley that will end in catastrophe the beginning of the earth's death today it is dear that we live in the midst of a tremendous spiritual battle for the future of civilization materialistic thinking and technology are leading toward destruction of the environment and a

degeneration in the quality of human life however many individuals are working for a new spiritual understanding and their work enables new forces to unfold if these healthy forces are taken up in the right way they can lead toward the respiritualization of mankind and the earth yet if misused for egotistic ends they can only lead into the depths of evil the choice lies with each individual richard seddon has gathered together many of the comments steiner made regarding the end of the millennium creating a rich mosaic of his indications on this subject a
